Skills

- Java
- C++
- Software Development
- Problem Solving
- Version Control (Git)
- Team Collaboration

Profile

Enthusiastic and dedicated Software Engineering student from Dhaka, eager to apply academic knowledge and practical skills in a dynamic software development internship. Skilled in programming languages such as Java, Python, and C++, with a strong foundation in software design and problem-solving.

Education

B.Sc. in Software Engineering

Jun 2023 – Aug 2027

Daffodil International University, Dhaka

B.Sc. in Software Engineering

Courses

AWS Cloud Security Fundamentals

Aug 2024

- Learned core concepts of AWS cloud security including identity and access management.
- Studied best practices for securing AWS infrastructure and data protection.
- Gained hands-on experience configuring AWS security services such as IAM, KMS, and CloudTrail.

Certificates

GitHub Copilot Fundamentals from Microsoft Learn

Sep 2026

- Proficiency in integrating GitHub Copilot with development environments to enhance code development efficiency.
- Certificate demonstrating foundational knowledge of GitHub Copilot and its capabilities.

Introduction to Open Source

Present

- Certified in Introduction to Open Source Software Development.
- Completed training on Open Source Licensing and Compliance.
- Certified Contributor to Open Source Projects on GitHub.

Microsoft Azure Products

- Certified Azure Fundamentals (AZ-900) – Demonstrated foundational knowledge of Azure cloud services and concepts.
- Microsoft Certified: Azure Developer Associate (AZ-204) – Validated skills in developing and managing cloud applications on Azure.

Web Development with Python and JavaScript

Feb 2024

- Certificate in Python and JavaScript Web Integration Techniques.
- Certification in Building Interactive Web Applications with Python and JavaScript.
- Certificate in Full-Stack Development using Python and JavaScript Frameworks.

Microsoft Excel for Data Analysis

2026

- Certification demonstrating practical knowledge of Microsoft Excel for data analysis.

GitHub Copilot Foundation for DevOps, System Architecture and Project Architecture

2026

- Certification covering GitHub Copilot foundations for DevOps, system architecture, and project architecture workflows.

Critical Thinking

Claude Code

GitHub Copilot Workspace

MySQL

Python

PHP/Laravel

JavaScript

Microsoft Excel for Data Analysis

DevOps

System Architecture

Project Architecture

Languages

English

Bengali

Hobbies

- Open-source contribution

Qualities

- Problem-solving
- Creativity
- Critical thinking

Achievements

- Developed and deployed a web application as part of a university project to improve local business operations in Dhaka.
- Collaborated with a team to design and implement software solutions using Java and Python during academic coursework.
- Optimized existing codebases to enhance performance and reduce loading times by 30% in class assignments.
- Participated in coding hackathons and secured top positions by developing innovative software prototypes.
- Completed coursework in data structures, algorithms, and software design principles with distinction, laying a strong foundation for software development.
- Led the integration of RESTful APIs to enhance the functionality of a campus event management system, improving user engagement by 25%.
- Implemented unit testing using JUnit and PyTest in academic projects, increasing code reliability and reducing bugs by 40%.

Product Development for Berger Paints

Product Development for Berger Paints

Apr 2024

Colorant and color mixing software

In my dad's business, I used to inspect software process manually from price to details. Color grading to dispensation
